

Hayle.

March 18" 1925.

To the Penzance (Hayle Division)

Port Sanitary Authority.

Gentlemen,

During the year ending Dec:31"1924,18 Foreign vessels (14 Steamers and 4 Sailing)with a tonnage of 2148 entered the Port,compared with 8 and a tonnage of 1359 in 1923.

The number of Coastwise vessels totalled 338 in 1924, of which 328 were Steamers and 10 Sailing and the tonnage amounted to 47543, compared with 255 and a tonnage of 32454 in 1923.

The total number of Foreign and Coastwise vessels in 1924 was 356 and the tonnage 49691 compared with 263 vessels and tonnage 33813 in 1923 - an increase of 15878 tons.

During the year,66 vessels were inspected by the Sanitary Inspector (vide report) and 33 by me.

No nuisances of a serious character were found in any of them necessitating the use of Statutory notices.

Several vessels required cleaning and this was carried out satisfactorily.

The Sanitary conditions were good; the bedding and clothing of the men were free from vermin; and no cases of sickness were on board at the time of my visits or had occurred² during the voyages.

Advice was given to the Officers in charge as to the necessity of providing for those on board, Fresh Meat, Water, Vegetables & Fruit at all times when a supply could be obtained.

The crews were clean, and enjoyed good health. Very few rats had been seen on board the vessels. The usual means of destroying them were by dogs, trapping and poison.

The Port is frequently inspected and found free of nuisances.

A few rats have been found at the stores on the Quay and were killed by dogs.

No arrangements up to the present time have been made for the receipt of wireless messages relating to the health of incoming vessels.

The usual tables of Statistics dealing with the amount of Shipping entering the Port; a list of the ports or places, with which the Port has most trade, and a statement of the Imports and Exports are herewith attached to this Report.

I remain

Gentlemen

Yours obediently

Z. Belling Mudge.

M.O.H.

I have received all the information from you
and have been very much interested in it. I have
been thinking of you very much lately and
wondering how you are getting on.

I hope you are well and happy. I
am still in the same old place, but
I am doing as well as I can.

Hayle.

March 24" 1925.

The Penzance (Hayle Division)

Port Sanitary Authority.

Sanitary Inspector's Report for the year ending
December 31st 1924.

During the year I have inspected the following:-

	57, Steamers.
Vessels Coastwise.	6, Sailing.
	2, Steamers.
Vessels Foreign.	1, Sailing.

The foreign vessels were in a very clean condition.

Seven of the Coastwise vessels were not so clean as they might have been, but on attention being called to the matter they were put in a clean condition.

There was no need for serving any formal notices.

The receptacle for containing drinking water was in a satisfactory condition.

Had there been any serious cause for complaint the attention of the M.C.H. would have been called immediately to the matter.

The Port is frequently inspected and all rubbish heaps and other nuisances are removed promptly.

In the Stores at the Wharves a sharp look-out is kept for rats; traps as well as poison are employed for their destruction.

It is not possible to ascertain the number of rats destroyed.

When vessels are inspected enquiries are made about the

/existence

existence of rats and instructions are given for their destruction.

On an occasion or two complaints have been made about oil being allowed to flow about the Port from ships being broken up in the Harbour, the shipbreakers have promised that this shall not occur again.

The Mortuary has been required on several occasions and is kept in a very clean condition.

Z.W. CHINN.

Sanitary Inspector.
